## The four seasons

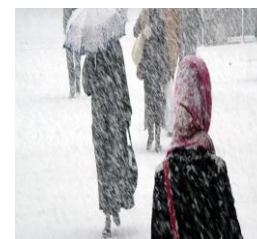

Spring

Summer

Fall

Winter

In most of North America there are four seasons: spring, summer, fall, and winter. Each season is about three months. The months of spring are March, April, and May. People wear warm clothes like jackets, raincoats, scarfs, whool hats and boots. As the weather gets warmer, they wear long-sleeve shirts, jeans and shoes. Officially, spring begins about March 22. The weather is usually cold and windy in March, but there are some warm days. There is a lot of rain in April, but May is usually sunny and beautiful. In May the plants and trees become green, and there are flowers of many colors.

Summer starts about June 22 and includes the months of June, July, and August. In June, school ends and vacation begins for many students. It is very hot in the summer and people wear casual clothes like shorts, t-shirts, sunglasses, sandals, tennis shoes, blouses and caps. People often go on picnics and to the beach.

After summer, comes fall. It begins about September 22. Vacation ends and school starts again in September. The weather is usually nice in September and October, not too hot and not too cold. People wear shirts, jeans, shoes, and hats. The leaves change color and become yellow, red and brown. The colors are very beautiful, but then the leaves fall from the trees.

Winter is cold in most parts of North America. It starts about December 22. The Winter months are December, January, and February. In many places it snows in Winter, and people go skiing and ice-skating wearing gloves, jackets, ear-protectors, jeans, socks and boots.

## Questions

1. What are the four seasons in North America? summer, spring, fall and winter
2. How is the weather in March? the weather in March is spring
